Hi, Paula,

I am planning to attend the Stakeholder's meeting, so I will see the CH2M Hill presentation there on the 21st, rather than at your shop on the 20th. If my plans change, I will let you know.

Thanks,

Craig

Craig – I have been assigned the Upper Cement Creek/Upper Animas site since Mike Holmes retired in August. We are having a presentation on a mine drainage treatment technology under development by CH2M Hill on Wednesday morning, November 20th from 9:00 to 10:30 AM. CH2M Hill will be giving this same presentation at the Animas River

Stakeholders Group meeting in Silverton the next day. I will send you a brief description in a separate e:mail.

EPA is inviting CDPHE to the presentation in our conference center on Nov. 20th. If you or others plan to attend, please let me know ASAP. I will need the names of all who will attend to give to security.

Steve Wharton and I plan on attending the ARSG in Silverton on Thursday, November 21st. We will be leaving on Wednesday afternoon to drive to Durango.

Since Marilyn Null retired last December, can you tell me who is the new community relations person assigned to this site? Thanks.

Paula Schmittiel
